

**'Welcome to T'ask?**  
**taskwhy.com**

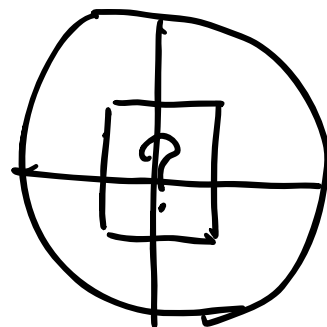

Task? resolves focus switching by distinguishing

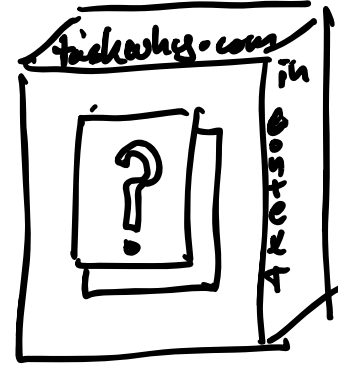

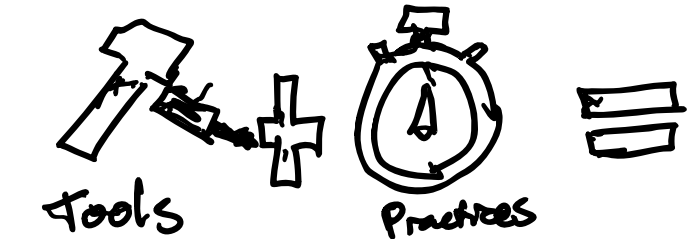

the "do" and the "do" of "tools"

But focus can switch, according

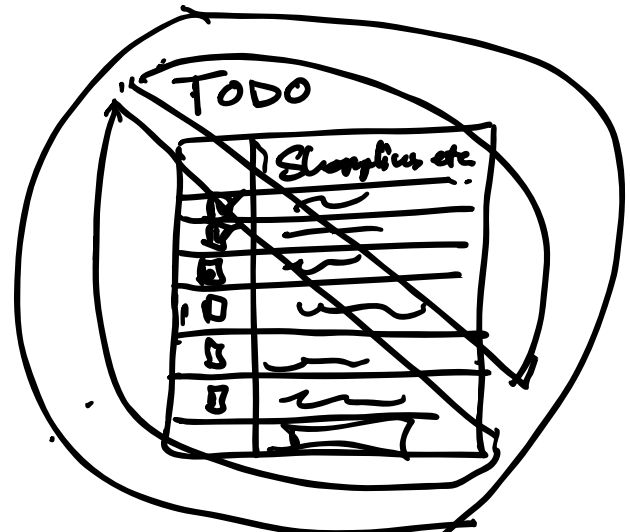

The question then becomes on how to target focus

The Contexte

I, Chris Mann, need a system for my daily organization.

The simple todo list doesn't do it for me.

and I will often change systems

- ☒ physical board
- ☒ paper organizer
- ☒ memo forms
- ☒ Evernote
- ☒ Reminders org made
- ☒ Reminders for Mac

My Current Home

Do [become myself](#), [Del.](#)

do [do the right thing, always](#), [Del.](#)

do [keep my thoughts organized](#), [Del.](#)

and/or do  [Add](#)

to **be chris** ([edit](#)) .

Task? (taskwhy.com) helps remember todos and their associated objectives in a convenient hierarchical virtual notepad. Task? is available for use at [www.taskwhy.com](http://www.taskwhy.com). Task? source code and project management artifacts are available at <https://github.com/chris2fr/why>. Inquiries may be addressed to Chris Mann at [chris@mann.fr](mailto:chris@mann.fr) or [+33 781 811 811](tel:+33781811811) (CET). Enjoy.

Do [find a clean space to work](#), [Del.](#)

do [find my CVs](#), [Del.](#)

do [set aside time to redo my CV](#), [Del.](#)

and/or do  [Add](#)

to **redo my CV** ([edit](#))

so as to [find a job](#) ([edit](#))

in order to [do the right thing, always](#)

in order to [be chris](#) .

Four levels down

do [add single sign on to todo list](#), [Del.](#)

do [add “”: “be {{user.username}}” to the result list](#), [Del.](#)

do [incorporate when](#), [Del.](#)

do [make buttons smaller](#), [Del.](#)

do [perhaps migrate to iotoi.org](#), [Del.](#)

do [reverse order on the drop down list](#), [Del.](#)

do [think about sharing Task?s with other users and groups](#), [Del.](#)

do [wait for answer from Sviatlana about taskwhy.com and IoToi.org](#), [Del.](#)

and/or do  [Add](#)

to **develop taskwhy.com** ([edit](#))

so as to [keep my thoughts organized](#) ([edit](#))

in order to [be chris](#) .

Do [be at the airport before. 9:10](#), [Del.](#)

do [do a vacation budget](#), [Del.](#)

do [pack my bags](#), [Del.](#)

do [prepare for 8 days of clothing](#), [Del.](#)

do [prépare Chris’ daughter’s coming](#), [Del.](#)

do [purchase mariage frères tea](#), [Del.](#)

and/or do  [Add](#)

to **181215-11:10 - take off for New York** ([edit](#))

so as to [prepare appointments](#) ([edit](#))

in order to [do the right thing, always](#)

in order to [be chris](#) .

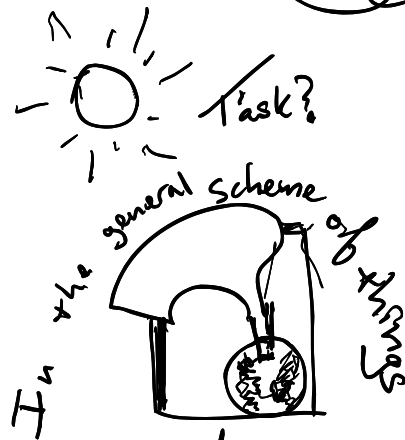

So can I!

Hey!  
I can program  
A web app,  
A mobile app,  
and  
A voice app!

I can set up  
a business payment system,  
a subscription service,  
and  
a marketing program

Maybe reconsider  
the name?

I can collaborate  
on a computer  
work combining  
many talents  
on GitHub!

So can I
